

## Worksheet 1.1 - Chromatic Keyboard and flats & sharps on the staff.

Name \_\_\_\_\_

In the following blank keyboards, write in all of the names of the black and white notes. Remember that the black notes have two different names.

We know what a staff is, we know where notes can be found on a treble clef staff, and we know what their names are. We also know what flats and sharps are, but we have not seen them on a staff yet. In the following treble clefs, you see 7 different flats and 7 different sharps. They all have different names coinciding with the lines and spaces they are on. Name them in order below each flat and sharp.

Draw two more keyboards on the back of this paper and fill in the chromatic black and white key names.
